

The Vernon Record.

Semi-Weekly—Tuesdays and Fridays

VOLUME 14.

VERNON, WILBARGER COUNTY, TEXAS, FRIDAY, MAY 5, 1922.

NUMBER 33.

PICNIC PROGRAM TOMORROW BEGINS AT TEN O'CLOCK

Candidates For County Offices To Announce First—Congressional Aspirants Or Substitutes Coming—Will Be Talks On County Hospital Election And Tariff Question.

Aspirants for county, district, State and national offices will present a full program tomorrow at the Doans picnic, to be held eighteen miles north of Vernon. Country folk who will attend the event, the thirty-ninth in its history, have been busy several days preparing the picnic dinner which has helped to make the occasion famous.

S. A. L. Morgan, candidate for the unexpired term of Lucian W. Parrish, will be represented at the picnic by C. C. McDonald or Judge A. H. Curran, both of Wichita Falls, and Guinn Williams, aspirant for the same office will be present in person. John H. Kirby of Houston, well known lumber dealer and president of the Southern Tariff Association, will address the assemblage on import duties. There will be ball games both morning and afternoon.

Candidates To Announce

Candidates for county and district offices will announce at the morning program, which will begin at 10 o'clock. Dr. E. L. Moore, Presbyterian minister, will then talk on the coming city-county hospital bond election. John H. Kirby will conclude the morning program with a discussion of the tariff question.

In the afternoon the program will be devoted to the speeches of Congressional candidates or their supporters. Goetz's band will furnish music for the entire occasion.

"No water has stood on the May picnic ground in forty-three years," remarked one old timer this morning when questioned concerning the effect prevailing rains may have had on the site. It was stated that each year a report of wet grounds is circulated, keeping many desirous of attending at home.

Is Well Drained

Soil under the trees where the yearly event is held is sandy, and the land is drained on the north by a small stream and on the east slopes toward the Red river.

A remark was made at the picnic last year that the event was being held in Oklahoma because many believed the land to be a part of the disputed possessions along the boundary. This year, say the residents of Doans, it "is still in Texas."

Vernon Men Buy Electric Bakery

B. D. Hockersmith, Horace Anderson and A. D. Tennyson have purchased the Electric Bakery and have assumed management of the plant. A. D. Tennyson is in charge of the business. The plant has been remodeled and is modern in every respect. Soon after the business was taken over by Mr. Hockersmith and associates, the bakery was damaged by fire. The building was not hurt but water ruined some hundred dollars worth of flour and sugar. They supplied their trade from Vernon while awaiting adjustments and repairs.

Blaze At Battery Station

The fire department answered a call about 10 o'clock yesterday morning from the Vernon Storage Battery Co. on E. Wilbarger street when a fuel line broke and scattered blazing gasoline on the floor. Only slight damage was done and the flames were extinguished with chemicals.

Baseball At Fairgrounds Today

Vernon high school will play Quannah high school this afternoon at 4:30 at the fairgrounds west of town. Baird and Richards are scheduled as the battery for the locals. Childress is said to be the only team which has defeated Quannah this season.

Elder To Preach Sunday Night

Rev. W. P. Garvin, presiding elder of this district, will occupy the pulpit of the Methodist church Sunday night. Rev. C. A. Waterfield, pastor of the church, will preach both morning and evening at the First Methodist church in Wichita Falls.

MARRIAGE GETS THEM "UP IN THE AIR."

Miss Sarah Cookfair, Brooklyn nurse, and Albert Schlitzke, director of a mountain camp for war veterans, "went up in the air" over their marriage. Flying 5,000 feet above earth, they were wedded by Rev. Melvin W. Maynard, "the flying parson," while Bert Acosta, famous pilot, drove the "air buggy." From left to right you see the bride and groom, Rev. Maynard, Bert Acosta and Baby Mary Louise Cobb.

FINDS DEFECTS IN COUNTY CHILDREN

**PUBLIC HEALTH NURSE SAYS
80 PER CENT IN NEED
OF CORRECTIONS.**

Eighty per cent of Wilbarger county children are in some manner defective physically, a survey conducted by Miss Rose Ellman, public health nurse, has determined. Forty per cent of these are underweight, and the remaining forty per cent have defective eyes, ears, noses, or are crippled or suffering from infantile paralysis. Poor vision is one of the most prominent shortcomings physically of county children. Fifteen per cent of them suffer in this manner. Some are totally blind in one eye and others are unable to see for any considerable distance.

Poor Teeth Prevalent

Forty-nine per cent of those examined have poor teeth or are in need of dental work. Numbers of those crippled, according to Miss Ellman, can yet be immeasurably aided through medical treatment.

The public health nurse has visited nearly every school in the county twice. She is desirous that parents where examinations have been made and the children found in need of medical attention, attend to these corrections before the opening of schools in the fall. This is essential she says, in order that the children may learn more quickly and not be handicapped in enduring the strain of the school terms.

Defects Being Remedied

According to the nurse 253 corrections have been reported to her as the result of recommendations made by her along this line. One of the main objects of the Child Welfare Conference here May 16, 17 and 18 will be to prepare the children from six months to 8 years old to be physically fit when ready to enter the public schools.

Ladies to whom appointments for examination of children may be phoned are Mesdames N. R. Heath, Alf Hills, J. A. Randall, Mont King or Miss Rose Ellman. The nurse can be reached at the Chamber of Commerce or the J. H. Pendleton residence.

Aviation Meeting Again This Week

Foul weather last week-end led to the continuance of the aviation meet staged under the auspices of the Wichita Falls American Legion post at that time to Saturday and Sunday of the present week. The event is heralded as being on a more elaborate scale than before. Some nationally prominent aviators will be in attendance.

Constructs Dam Across Wilbarger

A drain to carry off water at the juncture of W. Wilbarger and Fannin streets is being constructed by the city. Heavy rains caused water to stand in the gutters, and the new drain will carry this surplus north on Fannin street.

MOSQUITO DRIVE IS PLANNED BY LEAGUE

**CIVIC ORGANIZATION URGES
TOWNSPEOPLE TO JOIN
ITS RANKS.**

In order to eliminate mosquito breeding places and the accumulation of filth in Vernon, the Civic League is urging local townspeople to join its ranks under the slogan, "Help keep the town clean." The motto, "Clean Up Vernon," used during the recent campaign here, was instrumental in bringing about the most sanitary conditions in the city for years.

The Civic League systematically hunts trash and refuse of all kinds once each month for its members. A list of those on the roster is furnished the hunter who is required to check each home as it is visited. Careful supervision by club officers is exercised in order to ensure thorough work on the part of the employee.

Can Keep Town Clean

Although trash is hauled free of charge by the city once a year, those in the League believe the community cannot be kept in the best of order in the intervals. They also argue that as the town is actually cleaner than before, the Civic League is in a position to keep so. Mrs. W. H. Huggins of 426 W. Paradise street has charge of enrolling members. Dues are two dollars a year.

MISS RUBY SNEED BECOMES BRIDE OF QUANAH MAN

H. N. Bridenbald of Quanah and Miss Ruby Sneed of this city were united in marriage Wednesday night at the Baptist parsonage with Rev. W. T. Rouse officiating. The bride is the daughter of P. L. Sneed and was born and reared in Vernon.

Mr. Bridenbald is a resident of Quanah and is employed in the post-office there. The couple are now on a visit to Wichita Falls and Fort Worth. They will make their home in Quanah.

PROMINENT TARIFF AUTHORITY TO SPEAK AT DOANS PICNIC

John H. Kirby of Houston, prominent lumber man and president of the Southern Tariff Association, will speak at the Doans picnic on "Tariff On Farm Products." Mr. Kirby today will attend the northwest Texas tariff congress meeting at Wichita Falls.

The Houston man is recognized as one of the foremost authorities in the country on the subject of tariff, and has taken an active part in both State and national matters dealing with this phase of the nation's business. He is said to be an able speaker.

Marriage Licenses Issued

J. J. Wright and Miss May Lichyter, and H. N. Bridenbald and Miss Ruby Sneed were granted marriage licenses this week.

COMING OF SUMMER IN EVIDENCE ON WILBARGER FARMS

Plowing And Cotton Planting Keep Country Folk At Home—Wheat Showing To Fair Advantage, Alfalfa And Corn Looking Good—Rain Works Hardship In Some Sections.

With growing crops in evidence everywhere in the county, with farmers turning the soil and bugs on pasture, summer appears in near proximity in Wilbarger agricultural circles. There is intense activity at present in plowing and planting of cotton, and few farmers can be found idle on Vernon streets.

A superabundance of rain recently has been the cause of much replanting of cotton and some corn, but there is on the whole a decided feeling of gratification in local farming circles over the fine season provided for the ground. Where land is dry enough most farmers are plowing, and sandy land is at this time providing the best area for cultivation.

Hard Rains In East County

Hard rains in the east part of the county Wednesday night made many roads nearly impassable Thursday. A deluge fell at Guyer and vicinity, and horseback riding was the chosen means of travel for many residents the following day.

Nearly all corn is up, and some is almost knee high. Some cotton, too, is up but the rain has given it a yellowish tinge.

Wheat is looking fairly good, and has not suffered from an abundance of rain. In sections where farmers broke their land to the smallest depth wheat is appearing to best advantage. It has thus been provided with solid earth in which the roots can take firm hold.

Reverses Procedure

Usually deep breaking has proven of best advantage in this county. Abnormally dry weather, however, has reversed the suitability of the usual procedure.

Alfalfa over the county is looking fine. The first crop will soon be ready for cutting, and there is an abundance of this product everywhere, and some of the highways are in the best condition of many months.

Filling Station Resembles Lighthouse

A coal oil filling station built to resemble a lighthouse, has been constructed by R. L. More just west of the Service Auto Supply Co. on W. Wilbarger street. The structure will be snow white when finished, and will be topped by a 500 candlepower electric light. It is of fifty-five gallon capacity, and has a 1,020 gallon underground storage tank.

New Wells Promised For Wilbarger

Four wells within the next 120 days will be drilled by the Bankers Petroleum Co. of Spokane, Wash., in the southeast corner of Wilbarger county. Two producers have already been brought in by the concern just over the Wichita county line.

AVIATION MEET IN VERNON MAY 13-14

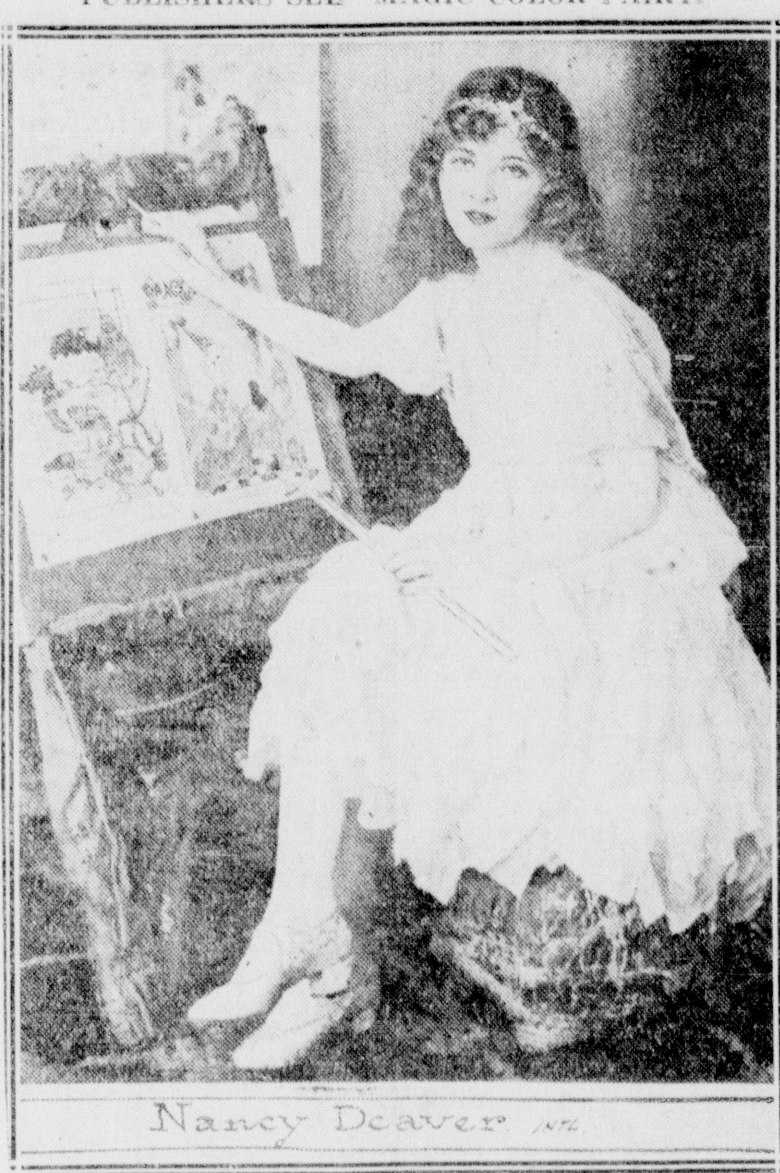

**LOCAL POST TO STAGE EVENT
SIMILAR TO WICHITA
FALLS EXHIBIT**

An aviation meet, similar to the event given last week-end in Wichita Falls, will probably be staged in Vernon Saturday and Sunday, May 13 and 14 by the local post of the American Legion, according to plans announced by officers of the organization this morning. A petition circulated by the exservicemen Thursday afternoon was signed by a sufficient number of business men to underwrite the event here.

Suitable grounds for the meet have been secured three miles southeast of the city and on the main highway. Twenty-five government planes and ten commercial machines will compete for honors, it is said. Wing walking, nose diving and other fancy flying exhibitions will be given.

Aviators from all sections of the United States are expected here. The event will be widely advertised throughout this section.

PUBLISHERS SEE "MAGIC COLOR FAIRY."

Members of the American Newspaper Publishers' Association, in convention in New York, have seen the "magic color fairy." Dainty Nancy Deaver here is shown demonstrating the magic color book which has become popular as a "kiddie" supplement for Sunday news papers.

COUNTY RESIDENT DIES OF PARALYSIS

END COMES TO MRS. ALICE S. SIMPSON WHILE VISITING IN BOWIE

Mrs. Alice S. Simpson, sister of Mrs. J. L. Burk of Route 4, Vernon with whom she had been making her home, died Tuesday afternoon at Bowie as the result of a stroke of paralysis. Mrs. Simpson had been in Bowie only a few days, having gone there recently on business. Mrs. Burk was called to the bedside of her sister before the end came.

J. L. Burk and son, Johnnie, attended funeral services in Bowie Wednesday afternoon from the home of Mrs. Simpson's brother, T. J. Wright. They were in charge of Reverend Allen of the First Baptist church at Bowie. Burial was in Elmwood cemetery.

Mrs. Simpson is survived by a son, E. A. Simpson, an attorney at Clarendon; one sister, Mrs. J. L. Burk of this county, and three brothers, J. M. Wright of Clearlake, T. J. Wright of Bowie and C. B. Wright of Childress.

BLANTON TO DEFEND RECORD IN CONGRESS HERE TONIGHT

Thomas L. Blanton of Abilene, present Congressman and candidate for reelection from his district, will defend his record in the nation's highest legislative body here tonight in the district court room at 8 o'clock. In an advance message Mr. Blanton has requested that every tax payer in the county be present, and has extended a special invitation to ladies.

The speaker asserts he will explain the many attacks made upon him in Congress, and will explain why certain leaders wished to oust him from the House of Representatives. Mr. Blanton is said to be an able speaker.

Pays Visit To Mammoth Cave

Miss Mozelle Parker, daughter of Mrs. B. J. Parker, spent Monday of last week at Mammoth Cave in Kentucky. Miss Parker made the trip as a member of a party of 600 students from Ward-Belmont College at Nashville, Tenn., where she is pursuing her studies. The trip, which was made in a special train, is an annual outing arranged by the school as an opportunity for its students to inspect one of the greatest natural wonders of the world.

New Front For Confectionery Store

Four folding doors, by means of which the entire front of the store can be thrown open, are being constructed by Collins and Ingram at their confectionery establishment on N. Main street.

MAYFIELD SCORES GOVERNMENT FOR CLASS FAVORITISM

Says Guarantee To Railroads Of Returns on Investments Working Havoc On Nation's Business—Would Restore Powers Of State Commissions—Pleads For Cause Of Farmer.

The repeal of the Esch-Cummings Transportation Act, and consequent return to State railroad commissions of the power to deal with rates within the state was presented as a solution of the traffic problem by Earle B. Mayfield, candidate for the United States Senate, who addressed Wilbarger county voters Wednesday afternoon in the district court room. Mr. Mayfield spoke to an audience of more than 250 persons, and storms of applause interrupted several portions of his speech. He was introduced by Harry Mason, mayor of Vernon.

Mr. Mayfield, who is a member of the State Railroad Commission, presented an intimate survey of transportation conditions in the country, and devoted the major portion of his address to their discussion. He scored the Federal government for granting privileges to one group of interests and thereby working a hardship on the great mass of people.

Believes Question Vital

"The transportation question I regard as the most important before the American public today," said Mr. Mayfield in opening. "I do not say this because I am a member of the railroad commission, but because in transportation is involved the fundamental principle upon which this nation is constructed.

"I am not here to abuse the railroads. They need the good will of the people just as the people need the kindly feelings of the railroads. But I believe that it is better to have our railroads controlled by a commission sitting at Austin rather than by one in Washington, D. C. When difficulties are to be adjusted it is far better that our citizens are able to receive satisfaction at the State capital rather than to travel hundreds of miles for such matters.

Powers Taken Away

"The two bodies, state railroad and Interstate Commerce Commission, were constructed for entirely different purposes. Now, however, the state railroad commissions have their hands tied through injunctions issued by the Federal government.

"In 1917, as a war measure, the government assumed control of the railroads, and when the crisis was over, through the Esch-Cummings Transportation Act, the roads passed back again to their owners. The powers of the railroad commissions, however, were taken away and centralized in the Interstate Commerce Commission.

"Do you know that the Interstate Commerce Commission has complete control over the equipment of all lines? It can take our wheat cars and ship them to the far northwest and leave our crops to rot in the fields. I was on the railroad commission two years ago when hundreds of letters poured in begging us to remedy the situation when our means of transportation had been taken from us and given to another section of the country. We were powerless to act."

Alleges Favoritism

Mr. Mayfield reviewed the experiences of Texas mines which were forced to close when coal cars were taken from this State and sent to West Virginia. He pledged himself to a revision of all the regulations curtailing the activities of the railroad commissions in the event he is elected to the Senate.

"The United States Government guarantees a return of six per cent to the railroads on the value of their property," he continued. "Why should this preference be shown? The farmer and the merchant is not guaranteed a return on his investment."

"Texas is included in what is known as the western group, extending from the Mississippi River to the Rockies, from Canada to Mexico. The value of the property in use is used as the basis for rate making. The Interstate Commerce Commission investigated the value of this property and decided that the entire amount, embracing watered stock as it did, was worth eight billion, 900 million dollars."

(Continued on page 9.)

WHO FOR CONGRESS?

Judge John C. Kay, one of the ablest laymen among the churches of Wichita Falls, and who teaches one of the largest classes of men in the Sunday Schools of that city, is quoted by the WICHITA FALLS RECORD NEWS of May 2nd, as saying to his class of men:

"It is not the Governors and the Judges that we need improvement on. It is not politics we need to improve. But we must raise up a more intelligent, a more competent, a more patriotic set of voters. Because, whatever your voter is, your representative is going to be, and, if you have voters who are not posted well on the merits and the demerits of the candidates, they are going to elect someone on some little issue that the lightning bugs would not light a lamp over. Because an incompetent voter does not know an issue when he finds one. He is more apt to become stirred up over a little issue than he is a big one. You ought to be able, gentlemen, to know the voice and cry of the demagogue when he goes among you shouting for office."

We believe the above admonition is an important one, and well worth our consideration these days when the people are flim-flammed so much by office seekers.

"Listen! Do we want to vote for a man simply because he is a bland and friendly fellow? Because he can manage to run up and clasp our hand and call us by name? Oh, how we have been fooled this way in the past! We want to say a few words for the man we KNOW—Judge S. A. L. Morgan—who is asking us to send him to Congress. But some say, 'We want a business man in Congress.' In the name of common sense, we ask: Does being a lawyer eliminate one from being a 'business man'? Do we not have lawyers in our district, yes, in our county, who are splendid business men? Is not Judge Morgan himself, a good business man?"

Friends, we of the Southland need some one to represent us in Congress who will be able to meet the satly and the adroitness of those keenly schooled men who are members from other sections of our country, and who are not interested in our welfare in the South. Surely, we need lawyers and judges in our Congress as much as we need them in our courts. If there is any place in our law-making bodies where efficient and dependable lawyers are needed to defend us as sovereigns, it must be in the halls of Congress.

In closing, I want to say I am for Judge Morgan because there is no question as to his ability to represent us in Congress in the very best way. Because he is now entering the very prime of his life; there is not a spot on his character; he is active, able, clean, courageous and aggressive. He has shown to us that he has these attributes in years he lived among us and for us. He deserves an overwhelming majority in the election to be held on the 13th day of May, and I sincerely hope we may give it to him.

GEO. W. BACKUS.

SUMMER TRAINING FOR BOYS

Dr. J. O. Morgan Announces Courses Arranged For Coming Summer Session

Owing to the vast interest manifested by the rural boys of Texas regarding training in agricultural subjects through the Boys and Girls Agricultural Clubs Extension Service A. and M. College of Texas, as evidenced by the large enrollment each year ranging from twenty to thirty thousand, it was deemed advisable to make provision for the summer training of

CARDINAL O'CONNELL IS HOME FROM ABOARD

Cardinal O'Connell

Cardinal O'Connell, Boston Prelate has returned to America from Rome. He arrived there too late to participate in the election of Pope Pius XI. Here the venerable Prelate is seen viewing the New York skyline from the steamship, on which he came home.

BELGIAN WAR HEROINE WILL WED AMERICAN

Suzanne Silvercray

Knighted by King Albert of Belgium for heroic war work, Miss Suzanne Silvercray's daughter of Justice Silvercray of the Belgian Supreme Court, will become the bride of Henry W. Farnham, Jr., son of Professor Farnham of Yale. The marriage will take place in Brussels this summer.

farm boys during the summer months at the A. and M. College of Texas. As a consequence of this realization Dr. J. A. Morgan, Professor of Agronomy, Chairman of the Executive Committee of the Faculty for the Summer Session, announces that an excellent course has been arranged.

Provides Farms Courses

The object of this course is to offer to boys not under fourteen or over eighteen year of age, elementary, but practical, courses in subjects relating to farm life.

The necessity for this course is especially emphasized by the fact that a great majority of these boys have not had access to schools of sufficient grade to enable them to enter college courses, and it is to meet their needs for practical instruction in agriculture that the Farm Boys' Division has been able to do the work of the Summer Session which covers the following important divisions of agriculture.

Agricultural Engineering: This work will consist of practical demonstrations relative to the use of farm tractors, gasoline engines, farm machinery, the construction of farm terraces, belt lacing and rope tying.

Agronomy: This course includes practical demonstrations and lectures covering the important methods of tillage, use of fertilizers and manures, crop rotation and seed selection.

Animal Husbandry: A general course briefly covering the various phases of beef cattle, horses, hogs, and sheep production, including judging, feeding and management.

Dairy Husbandry: This course will be devoted to the judging, feeding, breeding, care and management of dairy cattle, and the care and handling of dairy products.

Orchard Course Given

Horticulture: The theory periods of this course will be devoted to discussions of the fundamental principles underlying the propagation of plants by seeds, cuttings, budding and grafting; orcharding, including laying out of orchard lands and the planting and care of the orchard; vegetable gardening, including preparation of the land, construction of cold frames and hotbeds, fertilizers and preparing vegetables for the market. The practice periods will be devoted to practical work in making cuttings, budding and grafting; in laying out orchards, pruning and spraying; in mixing and applying fertilizers.

Poultry Husbandry: The work in

Sanitary Plumbing In The Kitchen

is even more essential than in the bathroom or laundry. Dishes, pots and pans must be washed and kept clean at least three times a day, and how much easier and faster you can do this when you have up-to-date plumbing equipment such as we will install for you. Let us show you the newest and best

Speaking dates and places announced by supporters of the hospital bonds election for the purpose of establishing a county hospital here are as follows:

Dumas—Saturday, May 6.
Fargo—Saturday night, May 6.
Gayer and Elliott—At Elliott Monday night, May 8.
Lockett—Tuesday night, May 9.
Farmers Valley—Wednesday night, May 10.
Hinds—Thursday night, May 11.
Highland—Friday night, May 12.
Tolbert—Saturday night, May 13.

poultry husbandry will include a study of the important phases of the industry as it applies to conditions on the farms of the State. Considerable time will be devoted to breeding, feeding, housing, judging and marketing. The practice work will consist of the study of breeds and types, candling and grading eggs; killing, dressing and marketing poultry.

PRETTY WEDDING AT LUTHERAN CHURCH

MISS HULDA TEINERT OF LEE COUNTY IS BRIDE OF ALBERT SCHOPPA

Albert Schoppa and Miss Hulda Teinert were married Wednesday night, May 3 at the Lutheran church in the Kinchloe community with Rev. L. Heinemeyer, pastor of the church, officiating. Attendants were Paul Schoppa and Miss Millie Heinemeyer, Louise Schoppa and Miss Hattie Drock, Paul Schur and Miss Matilda Zech, Arthur Schoppa and Miss Mary Obenhaus.

The bride was attired in a dainty shell pink georgette with silk lace insets. After the ceremony the wedding party drove to the home of C. Schoppa where refreshments were served and the evening spent enjoying a musical program.

Will Live In County

The bridegroom is a son of C. Schoppa and is a native of this county. Mrs. Schoppa is a daughter of Mr. and Mrs. William Teinert of Lee county, and has been making her home with the family of C. Schoppa, thirteen miles southwest of Vernon.

New Paper At Odell

H. H. Wienhold and son of Oklahoma have started the publication of a newspaper at Odell. "Odell News" is the name of the new publication, and copies of it show it a very neat, well edited sheet. The paper is issued every Thursday and is well supplied with advertisements by merchants of Odell.

The table below gives dates of the coming elections and the issues to be voted on:

MAY 13—A representative will be chosen from the Thirteenth Congressional District to fill the unexpired term of the late Lucian W. Parrish.

MAY 16—Willbarger county will vote on a \$50,000.00 Bond issue, the proceeds from which is to be used for the purpose of erecting a County Hospital.

JULY 22—The Democratic Primary Election will be held on this date. At this election all county officers will be nominated. A governor, state representative, a congressman and a U. S. senator will also be nominated.

?—A charter election for the purpose of voting on a city amendment providing an additional 25-cent school tax levy is now in the making.

If one is tired of gazing for the thousandth time at the antics of tinsel-draped beauties and anemic looking men attired in evening clothes who are being made to suffer the horrible pangs of love and jealousy in dainty drawing room scenes, or other gilded surroundings; or if perchance one is bored by repetition of allegorical conceits emanating from out the wildest flights of fancy, it is a relief to find such a picture as the one playing at the Vernon Theatre, in which Roy Stewart is supported by Louise Lovely. "The Heart of the North" is its title.

This is a drama of the far northwest where none but the bravest can withstand the hardships of a region beset with snow and ice and a country harboring lawless men and wild animals. It is a land where the frail and weak perish at the waysides in the inexorable game of life and where only brute strength dominates.

The interesting outdoor scenes were actually photographed "north of sixty" at a considerable expense, so that realism would result. Those responsible for the photoplay should be congratulated upon obtaining the combined services of Roy Stewart and Louise Lovely in the leading roles. When presented at a private showing for the first time in New York City, at which were present discerning crit-

ics of the screen, it was agreed that it will be long ere another motion picture would make its appearance containing the entertaining value of "The Heart of the North."

W. S. MOORE

of Gainesville

Candidate for Congress

For the Unexpired Term of Lucian W. Parrish from the 13th Congressional District Makes Statement

TO THE VOTERS OF THE 13TH CONGRESSIONAL DISTRICT:

I am a candidate for the unexpired term of Lucian W. Parrish. I am not a candidate for the regular Democratic nomination on July 22. I desire to make the following statement:

I do not believe that any citizen should be a candidate for two offices at the same time. I do not think it right or proper for candidates to be asking for the unexpired term and at the same time be seeking the Democratic nomination for that office at the July primary. My reasons for so thinking are threefold:

1. At the election to be held on May 13 to elect a Congressman for the unexpired term, the members of all political parties may vote, while at the Democratic primary in July only Democrats may vote.

2. A Democratic nominee to be elected in July will be chosen by a majority of all Democratic votes while your representative in Congress for the unexpired term to be elected May 13 will be elected by a mere plurality of the voters of all parties, and thus a Democratic nominee could indirectly and in a large measure be chosen by those other than Democrats, if such an election is to give any advantage in the Democratic primary in July.

3. The person who may be chosen for Congress in the May election should proceed immediately to Washington upon his election and enter upon his duties and not remain in the campaign for the Democratic Nomination in July and thus spend the time and the money of the people for that purpose.

I believe that the platform of a candidate for congress should be more important than his picture and that what he stands for should be of greater concern than what he looks like. I believe that when a citizen offers for the great office of representative in congress he should tell what he stands for and let the people know what he proposes to do. The people ought not to vote for any candidate merely because they have seen his picture in a show window or have received his card. The office is of too great importance to be disposed of in any such manner. It is not a question of "honoring" some individual, nor is it a question of who gets the salary, but it is a question of SERVICE. So believing, I state briefly what I stand for on national issues:

1. I favor the collection of every dollar due us from European countries, so that our own taxes may be reduced.

2. I favor the immediate withdrawal of American soldiers from the Rhine and other foreign soil. It is costing the American taxpayers approximately \$1,000,000.00 per day to keep our soldiers on the Rhine.

3. I favor getting out of Europe and its affairs and giving some attention to our home matters; wages are low; farm products are selling below the cost of production; merchants are facing bankruptcy and the entire nation is in distress. These conditions should be relieved, before meddling further in Europe's affairs.

4. I favor the immediate limitation of the Army and Navy in times of peace to the lowest possible limit. We are spending about \$95.00 out of every \$100 of revenue collected on the Army and Navy.

5. I do not favor taxing the American people for the purpose of loaning the money to Europe and then "forgiving" such loans.

6. I favor taking proper care of the wounded, sick and disabled soldiers of the World War.

7. I am opposed to any further encroachment of the Federal government upon the rights of the states and I favor the immediate restoration of the powers of state railroad commissions over intrastate freight and passenger rates.

8. I favor the immediate reduction of freight and passenger rates to the end that business may revive, the high cost of living be reduced and farm products may be moved and marketed.

9. I am opposed to calling our boys to fight again in foreign wars without a vote of the people first authorizing the same and I am opposed to any declaration of warfare unless in case of foreign invasion or the imminent danger thereof. I am opposed to universal military training in times of peace.

10. I favor the most restrictive immigration law that can be enacted so that we may be protected against undesirable foreign immigrants.

11. I am opposed to any form of a "ship subsidy" whereby the shipping trust is benefited at the expense of the tax payers of the country.

12. So long as capital is permitted to organize to oppress the people I recognize the right and the necessity for labor to organize for its protection and I also recognize the rights of the farmers to organize for their protection.

13. I am opposed to any form of a protective tariff whereby the manufacturers of the nation grow rich and powerful at the expense of the producers and consumers of the country. A tariff for revenue only is a Democratic doctrine, but a tariff for "protection" is indefensible.

14. I am opposed to the "deflation" policy of the Federal reserve banking Board which brought about the distressing money stringency and caused the low prices of farm products and brought bankruptcy upon a great class of our citizenship. I favor a decided curtailment of the power of that Board.

Owing to the short time in which to make the race and owing to the fact that other candidates are taking advantage of a campaign of several months, I shall be unable to see the voters to the extent that other candidates have seen them. Find out what my platform is and demand to know what the other candidates stand for and vote for the best interests of the district and the country.

Respectfully,
W. S. MOORE.

QUEEN HOLDS COURT IN ALLINGHAM PARK

BRILLIANT EVENT STAGED LAST
EVENING BY PUPILS OF
CENTRAL SCHOOL

One of the most attractive events in years was presented last night to an audience of more than 1,500 persons at Allingham Park in a May festival staged by pupils and teachers of the Central school. Dressed in quaint court and fairy costumes of bright and varied hues, the children proceeded faultlessly with their program underneath a bower of lights framed by the dark foliage of the park's beautiful trees.

Music throughout the occasion was furnished by Goetze's band, which played almost continuously through nearly two hours. Access by automobile to even the vicinity of the park was barred for several blocks by hundreds of cars belonging to those attending the program.

Miss Ruth Alene Sewell was queen of the May, and sat in great state upon a huge throne around which were grouped her ladies in waiting. The production was planned and directed by Miss Leola Smith.

Bugle Announces Fete
At 7:30 the Queen's bugler proclaimed the opening of the festival for the Queen's pleasure, announcing the approach of the royal party. Fourteen ladies in waiting. The Queen's bugler then announced the maids of honor. These were Lady Bertha of the House of Smith, Lady Martha of the House of Long, Lady Linnie Leathel of the House of Fisher, Lady Gladys of the House of Thompson.

Again the clear note of the bugler sounded announcing the visiting princesses from foreign kingdoms. These were Katharine of the House of Batchelor, of the kingdom of High School; Lady Mae of the House of Smith of the kingdom of Shive School; Lady Lorine of the House of Sneath, of the kingdom of Parker School.

Queen Ascends Throne
The Queen's bugler announced the future Queen of May. After she ascended the throne, Father Time, represented by Alvis Clifton Withers, took the crown from a eunuch, Lyndon Storey, and crowned Ruth Alene I. of the House of Sewell, Queen of the year, and from another eunuch, Jack Christian, took the scepter and placed it in her hand.

The program for the pleasure of Her Highness was given by her subjects.

YOUTH'S SIGHT RESTORED
WITH DYING MAN'S EYES

John Eickenberger

By transfer of living pupils from the eyes of a dying man, John Eickenberger, totally blind for four years, has recovered his vision. The operation is declared by surgeons to be the most remarkable accomplishment in the history of medical science.

COMPANY PREPARES FOR ANNUAL CAMP

EVENT THIS SUMMER TO BE
LARGEST IN HISTORY
OF STATE

The coming of a Federal instructor from the regular army to give detailed information to members of Company L, 142 Infantry of Vernon Saturday and Sunday, May 6 and 7, is regarded as a high honor by the local organization. The instructor will inform the men concerning the annual encampment this summer, and is sent here from the adjutant-general's office at Washington, D. C.

Those who attend the camp this summer are required to enlist at least sixty days before its commencement, or by June 1. Local officers are expecting to report with complete personnel at the event which will be the largest ever held in Texas. Many high school boys, unable to enlist last year, will be admitted this time.

Must Have Good Record
No one can become a member of Company L unless he lives in Wilbarger county. He must pass a vote of the entire organization, as well, in order to insure the soldiers one of the best companies physically, mentally and morally in the State. The summer is expected to provide the keenest competition in the history of the national guard.

Those seeking information concerning enlistment are referred to Captain Clyde D. Watts or Jay V. Russell at 900 N. Main street, or E. O. Youngblood, James Bomer, James Gilliland, Perry McDonald, Leslie Russell, Bob Bomer or John Storey.

The presence of a plesiosaurus in Patagonia is doubted. No American promoter has offered stock for sale in a Patagonian plesiosaurus farm.

WITH THE WILBARGER COUNTY PURE BRED LIVESTOCK ASSOCIATION

(By TED MORROW, Secretary)

Fat cattle brought the best price of this year on the Fort Worth market yesterday. South Texas steers sold for \$7.75 while yearlings touched \$8.50.

Hogs went up, too, the price for tops being \$10.05. Hens brought 19 cents per pound while broilers sold for 45 cents. Eggs yielded \$5.75 the case.

Plenty of cheap pasture is necessary for raising livestock at a profit. Wilbarger county has an abundance of pasture crops this year.

Worms In Poultry

Question: What is a good remedy for worms in poultry? Answer: by Prof. T. J. Conway, poultry specialist at Texas A. & M. College: Starve your poultry for half a day, then give them a wet mash (bran, shorts, meal, etc.) in which is mixed two grains of powdered Acrea nut for each grown bird. Follow this mash in two hours with another wet mash containing epsom salts. A teaspoonful of salts to four or five birds will do.

The Acrea nut makes the worms turn loose; the salts flushes them out. Worms are much more of a poultry pest in this country than people believe. I have found tape worms and round worms both in the entrails of chickens that were fat when killed. It takes more feed to fatten a chicken or to make a hen lay eggs when worms are present than it does otherwise. Twenty-five chickens can be treated for ten cents.

People who have suffered heavy losses to their baby chicks during the rainy weather are preparing to set more eggs. The fanciers usually reduce their egg prices in May to half price. The breeder can take advantage of this fact and get good prize winning stuff cheaper. It is said that most of the show winners are hatched in May and June. I suppose it is natural for chickens to come off at this time.

Hogs crave mineral matter. A balanced ration may furnish all the necessary feed nutrients, but the system of the hog demands mineral matter. Farmers Bulletin 874, U. S. Dept. of Agriculture, Washington, D. C., gives the following mixture:

Charcoal, 1 bushel; hardwood ashes, 1 bushel; salt, 8 pounds; air-slaked lime, 4 pounds; subphur, 4 pounds; pulverized coppers, 2 pounds. Mix the lime, salt and subphur thoroughly and then mix with the charcoal and ashes. Dissolve the coppers in 1 quart of hot water and sprinkle the solution over the whole mass, mixing and stirring it thoroughly. Keep some of this mixture before the hogs all the time, either in a box or a self-feeder.

There is no good reason why a sow should not produce two litters a year when properly handled. To accomplish this the sow should be bred to a farrow, say in March and September. A sow bred on May 15 will farrow about September 3. The pigs can nurse for 8 weeks. Then the sow can be bred again in November 15 for farrowing about March 7. The chances for profitably raising two crops of pigs from a sow annually are undoubtedly far better in regions of mild climate and short winters, like West Texas and Oklahoma than where the winters are long and severe.

A sow is a pig factory. Select your brood sows to produce good pigs and plenty of them.

Selecting Breeding Pigs

Soon after weaning it is best to separate pigs which are to be kept for breeding purposes from those that are to be fed out for market. Only such gifts as show exceptional type and conformation should be chosen to replace or augment the sows in the herd. No boar should be saved for breeding unless he is pure bred. When boar pigs are saved they should have the same care as the breeder-gilts. For instructions see Farmers Bulletin 874 which may be secured from Mr. Chaney, county agent.

Newspaper reports indicate that a \$500,000 incubator and poultry supply factory is to be built in Dallas, The Southwest, and particularly West Texas, will some day be the poultry center of the world. Nature has given us the climate, the soil has given us the feed, God give us the foresight to see our opportunity.

At The Churches

Federated Presbyterian Church
S. L. Moore, D. D., Pastor.
Sunday school at 9:45 a. m. Classes for everybody.
Preaching at 11:00 a. m. and 8:00 p. m.

This is the beginning of the second year of this pastorate and the pastor and session are anxious to have all the membership present. The subject for the morning hour will be "Doing our Work Over." The evening subject will be, "Are There Any Sinners?" Opportunity for joining the church will be given. A cordial invitation to all to worship with us.

AN UNSEEN POWER

Speculation as to what the radio
will bring fifty or 100 years from now
stagger the imagination. One of the
possibilities, however remote it may
be, is that it will bring the various
peoples of the earth so closely to-
gether in speech and thought that
they will eventually speak a common
language.

The passion for understanding
which must follow the universal use
of the radio, it would seem, will de-
mand a universal language in which
understanding can be conveyed. A
genius in China, for instance, over-
topping the world with his science or
his philosophy or his humor would
pour his message into the radio and
the air would fling into the ears of
the far world an incomprehensible babble.

There have already been attempts
before to impose a universal language
on civilization. They failed because
for the mass of mankind there was no
obvious impulse to adopt them. Now
for the masses, however, space is
dissolved. The tongue of India speaks
from the receiver as glibly and clearly
as the voice of the guest across the
room. The desire for understanding
may do what academics have failed to
achieve—effect a common speech and
yes, even draw the world into closer
accord than leagues of nations or dis-
armament conferences.

MAYFIELD CONSTRUCTIVE

Those who heard Earle B. Mayfield,
candidate for United States Senator
who addressed Wilbarger voters Wed-
nesday afternoon, must have been im-
pressed with the constructive policies
of remedying certain shortcomings in
the affairs of the national govern-
ment as outlined by the speaker. Al-
though his address in the main dealt
with the transportation problem con-
fronting this nation, Mr. Mayfield dis-
played an intimate knowledge of his
subject that outvalued that of any
previous Senatorial candidate here
this year.

There can be no doubt but that the
question of railroad rates and means
for lowering them will play a vital
part in the political campaign all over
the country. Government paternal-
ism is slowly but surely working a re-
action upon the American public, and
there is much honest questioning
about a system that supplies favors
for one class and thereby works a
hardship upon another.

Mr. Mayfield is right in his conten-
tion that the government offers no
fixed return to the farmers and mer-
chants as it does to the railroads. His
assertion that a true schedule of rates
can be based only on the actual value
of the property in use carries with it
a wealth of sound logic. Many can-
didates are contenting themselves
with the empty assertion that rail-
road rates must come down; Mr.
Mayfield has taken the all important
additional step of telling how to low-
er them.

SAYS JOHN P. MEDBURY

Some of the large barber shops are
installing orchestras and serving tea
and cakes. The first thing we know
we'll have to be paying a cover charge.

The head barber will hand us a bill
of fare to order from.

If you want something light you can
order a shave and if you want some-
thing heavier you can ask for a sham-
poo or a massage.

The musicians will come in handy.
While the barber is trying to sell you
a bottle of hair tonic the orchestra
can be playing "Silver Threads Among
the Gold."

A lot of barber shops already have
fancy names. One guy thought a ton-
sorior parlor was a place where you
went to have your tonsils taken out.

These barber shops will soon be run
on the order of Ziegfeld's Midnight
Follies with a chorus of fifty man-
icurists.

Can you imagine going into one of
these Barbarys and asking for a shave
a-la-minute?

With this sort of thing you ask
for a shampoo on a casserole.

It won't seem like anything to go in

and ask for a haircut with Thousand
Island dressing.

It will be wonderful to be shaved
while you're drinking tea and listening
to the orchestra play operatic selec-
tions from Pexoxide.

Business men won't care whether the
barbers are all right or not, so long as
the music is good.

The barbers will soon be running
their advertisements on the theatri-
cal page.

Before long we may read an ad
something like this: "Come in and
listen to our Saturday afternoon con-
cert of special music. Lyrics by Wil-
liam Atteridge, Melodies by Victor
Herbert."

Another one will read: "Visit our
tonsonior cabaret, absolutely the best
musical program of any barber shop
in town."

It's not at all unlikely that the big
circuits might add a few barber shops
to their string of theatres.

So don't be surprised if you see an
electric sign out in front of a tonsonior
parlor which reads: "High Class Van-
deville and Haircuts."

STORIES OF GREAT INDIANS

By Elmo Scott Watson

Copyright, 1922, Western Newspaper Union.
PIESKARET, THE CONQUEROR
OF THE IROQUOIS

IT TOOK a mighty warrior of any
tribe to hold his own with the Iro-
quois back in the colonial days. But
Pieskaret (Bisconace—"Little Blaze")
did it and his name became a word
of terror to them during the perpetual
war between these "Romans of the
west" and his people, the Adiron-
dacks.

One day early in 1644 Pieskaret set
out on a lone war trail toward Lake
Champlain. As he neared the Iro-
quois villages he reversed his snow-
shoes so that if enemy scouts found
his trail it would be leading away
from this village instead of toward
it. Late that night he entered the
camp and stealthily crept into one of
the lodges. By the low-burning fire
in the center he saw that its occu-
pants were asleep. Working swiftly
and noiselessly, the Adirondack kil-
led and scalped all.

The next morning a terrible cry of
grief and rage arose when the dead
bodies were found. Pursuing parties
followed a trail of snowshoes leading
away from the village but the war-
riors returned without catching a
glimpse of the murderer. That night
Pieskaret slipped out from his hiding
place, entered a lodge and again killed
and scalped. But on the third night
he found two warriors on guard. His
game was up.

Then he discovered one tent where
the sentinel nearest the door was
asleep. Suddenly throwing the door
flap, he struck a terrible blow with
his war club, sounded his war whoop
and dashed into the forest. The Iro-
quois were hot on his trail for the
remainder of the night and far into
the next day, but by evening there
were only six of his pursuers left.

Springing to the side of the trail,
Pieskaret hid in a hollow tree and
watched the chase speed past. Then
he swiftly followed. That night while
the tired Iroquois lay asleep, a form
glided into their bivouac. A war
club rose and fell six times. The
next morning Pieskaret with six more
scalps sped north to exhibit his
tribesmen these trophies of the great-
est individual feat of arms ever per-
formed by an Indian warrior.

A few years later the Adirondacks
made a treaty with the Iroquois. One
day Pieskaret met a delegation from
the Five Nations on their way to vis-
it the governor of Canada. Singing
a peace song in honor of the truce be-
tween tribes, he advanced with out-
stretched arms to meet them. His
answer was a volley from a dozen
guns and Pieskaret, the Adirondack
champion, lay dead.

THE POET'S CORNER

A DREAM OF HOME.

I'm treading the long pathway homeward,
And heading toward Promise Land,
I'm happy and free, the path before me
is stretching to oft longed for strand.

There are joys that I'll find at its ending,
There are memories sweet I'll renew,
I'll ramble around on that dear hallowed ground
And find my lost childhood there, too.

Already I've reached the dark wildwood
With lane leading up to the door,
My whistle rings shrill and echoes until
The hills throw it back as of yore.

I see mother's face at the window,
And hear all the little ones shout,
The door opens wide, once again I'm inside
And the drab, dreary world I've shut out.

It's many a step down the home path,
And many a turn's to be made,
But joy blots remorse at the end of its course,
And all of the worldly cares fade.

I'm home again, yes, but the shadows
Are blotting it all from my sight,
I see the path's trend, but I'm still at this end,
I've only been dreaming tonight.

—E. G. S.

Foster's Bulletin.

Washington, D. C., May 6.—North-
west division, all north of 36, between
90 and Rockies crest, will average
cooler for the week centering on May
14. Storm forces and rains will be
decreasing near May 12, having past
their greatest near 9; cooler weather
and fears of frosts will prevail near
14 with slowly rising temperatures,
continuing for several days. Good
crop weather is expected up to middle
of May except where high ridges lie
south of you, a shortage of rain may
occur. Moisture will come from the
southward on the winds that blow
westward over the Bermuda islands
and turn northward. These winds
will be heavily laden with moisture
and if high land are north of you, too
much rain is probable. For this di-
vision you may count on near the ten
year average cropweather and arrange
your affairs accordingly to the end of
May.

Northeast division, north of 36 and
east of 90, is expected to get a little
less moisture during May than the
middle northwest, as the moist winds
must move greater distances before
entering the eastward moving storm
centers. Otherwise the temperatures
and other weather features are ex-
pected to be very near the same as
for first paragraph above. But tem-
peratures for this division will be un-
usually low near May 19.

Southwest division, all west of meri-
dian 90 and south of 36, also Louisi-
ana and Mississippi, will get a great
warm wave during the week center-
ing on May 10, and increasing rains
following that date. Temperatures
of that week will average unusually
high but sufficient moisture is ex-
pected to make good crop weather. No
unusually low temperatures are ex-
pected before May 20 and that will
be too late for frost. I am expecting
good average crop weather for this
division for May and also for the
eastern cotton states, but there are

Pumpkin Pie

One cup of steamed and strain-
ed pumpkin. Two-thirds of a cup
of brown sugar. One teaspoon-
ful of salt. Two eggs. One and
one-half cups of milk. Mix sugar
spices and salt; add pumpkin,
eggs, slightly beaten, and milk,
and cream gradually. Bake in
one crust and serve.

indications of a shortage of rain

considerable shortage of rain in the
West Indies, northern half of South
America and all around the Mediter-

Pacific Slope division, all north of
36 and west of Rockies crest, is ex-
pected to get very much the same
weather changes as predicted for the
northwest division, except the changes
for the former will occur about two
days earlier than for the latter and
the weather changes will produce less
rain for the slope than for east of

CUTTING DOWN TABLE COSTS

LIGHT BREAD

vs.

Breakfast Foods

An investigation made by scientific men of all the breakfast foods on
the market proves the following: First this "The wheat flours con-

than the wheat breakfast foods"—U. S. Dept. of Agriculture bulletin.
Then this "At the usual prices the nutrients in ready-to-eat cereals
are considerably dearer than those furnished by bread and crackers."
—U. S. Dept. of Agriculture bulletin.

Finally this, "The most important use of cereals is undoubtedly as
bread stuffs. Bread has thoroughly established its place as the most
palatable nutritious and convenient cereal preparation for general use.
Crackers or biscuit or the various kinds of cake etc. are in a way var-
ieties of Bread or substitutes for it and are recognized as staple foods.
What then is left for the so-called breakfast foods?"—U. S. Dept. of

WILBARGER COUNTY NEWS

Thalia News.

Thalia, May 2.—(By Special correspondence.)—The Thalia school closed Friday after a successful term of eight months. The teachers were Prof. and Mrs. Jesse Owens and Misses Knoxie Burris, Myrtle Huntley and Opal Cuts. There were eleven graduates; Claud Roberts, Frank Main, Misses Bessie Webb, Avall McNair, Ruth Haney, Ruth Grimm, Isabel Self, Laura Caldwell, Pauline Pigg, Annie Wood, and Naomi Langley.

The many friends and relatives of Mrs. J. G. Thompson will be glad to hear that she is able to be up again after a very serious illness of more than a month.

Lee Schultz and family are preparing to leave this week with their picture show. They will tour the western counties and show in the towns a few days as they pass through them.

Mrs. Otto Schroeder and daughter, Mrs. Anna Woodruff, spent Friday evening with Mrs. John Ray and her friend, Miss Lena Drayway of Langrange, Mo., who is visiting here.

Ewald Schroeder and Joe Conful motored to Wichita Falls Saturday evening and returned Sunday night. They were accompanied home by Joe's cousin, Miss Conful and her friend, who will visit relatives here a few days.

Lee Schultz went to Talmage Friday night with his picture show. Mr. Williams of Burkburnett was in this community last week visiting his cousin, Dick and Ted Solomon.

Mr. and Mrs. Willie Johnson entertained with a party Saturday night. Ab Miller of Clarendon has been here looking after his farms and other business interests.

A large number of Thalia people went to Crowell Tuesday to hear Governor Neff speak.

Mr. and Mrs. Harley Capps of Crowell attended the play here Friday night and spent the night with her parents, Mr. and Mrs. Mark Self.

Harrold News

Harrold, May 1.—(By special correspondence.)—Miss Ruby Houtchens who has recently undergone an operation for appendicitis at a sanitarium in Vernon, is doing nicely and will return home soon.

The Elliott school closed last Thursday, April 27.

Entertains With Breakfast

Miss Anne Bennett entertained Wednesday morning with a sun rise breakfast at Hill Crest. The affair was given in honor of Miss Catherine Waterfield, who leaves today for Nashville, Tenn. The following were present: Misses Minnie Wafer, Ruth Walker, Ola Ferguson, Hazel Vaughn, the honoree and the hostess.

Will Preach At Baptist Church

Jeff B. Ray of the Baptist seminary at Fort Worth will preach at the Baptist church both morning and evening Sunday.

Shive School Wins From West Vernon

The Shive school ball team Wednesday afternoon defeated the West Vernon school 17 to 14 in a hard fought game. When Lisman knocked out a three bagger he brought in two runs for the winners and assured victory. Howard and Craig formed the battery for West Vernon, and Ferguson and Vaughn did the honors for Shive.

HARDWARE CONCERN TO HAVE NEW HOME

NORTH TEXAS HARDWARE FIRM WILL ERECT TWO STORY BUILDING

The North Texas Hardware Company, formerly known as the Herring-Showers Hardware company, will start work at once on the erection of a modern two-story brick building just east of its present location on W. Pease street. H. C. Allen, local contractor, has submitted plans and specifications and announces that the

building will be ready for occupancy in 90 days.

The building will be 50 by 110 feet, and will be used exclusively by the owners. The lower part will be used as a display room for hardware, and the upper part will be devoted to storage of goods.

Work at excavating will start Monday. Materials have been purchased, all arrangement have been made as to labor and the work will be pushed to a rapid completion.

Misses Anne Bennett and Catherine Waterfield and Claude Forebee and Raymond Edmondson motored to Chillicothe Thursday evening.

MAYFIELD SCORES GOVERNMENT FOR CLASS FAVORITISM

(Continued from Page 1.)

ers. This brought about a subsequent raise in railroad rates.

State Roads Follow

"Soon after this a petition was presented to the State Railroad Commission by Texas railroads asking that a like increase be granted for transportation intrastate. The Commission demanded testimony as to why this should be done, but the attorney for the roads based his petition on the provisions of the Interstate Commerce Commission action, and threatened discrimination against the State in the event the raise was not allowed.

The Interstate Commerce Commission was appealed to by the roads, and set aside our rates. We in turn appealed to the Supreme Court of the United States and it upheld the Constitutionality of the Esch-Cummings act. The only hope of the people of Texas is to send to the United States Senate those men who will fight for their rights, and who will demand the same treatment for everyone.

"Candidates for office addressing you are proclaiming that they would lower freight rates, but make no mention of the method they would use in effecting this end. A calculation of rates can only be based on the actual value of the property in use.

Rates Out Of Proportion

"In the western group, embracing Texas, railroad property is valued at \$58,000 a mile. In Texas itself road valuation is but \$38,000 a mile, and still we are paying freight and passenger rates based on the other valuation."

In outlining the manner in which the Interstate Commerce Commission over rode the Texas Railroad Commission, Mr. Mayfield cited the Shreveport rate case of 1914 which established the right of the Federal body to deal with conditions within the State. Thus far, said the speaker, the Texas commission has been able to induce only two Congressmen to champion its cause, and at his mention of Lucian W. Parrish as one of these, the audience broke into applause.

Revenue Decreases

"Increased rates do not necessarily mean increased revenue," Mr. Mayfield explained. "If rates are higher than the traffic will bear, freight will not move. In Texas alone there was a decreased revenue last year of fourteen million dollars. Eighteen months ago there was a shortage over the nation of 500,000 freight cars, today there are that many in excess."

The candidate for the Senate cited specific incidents to prove his point that business is being crippled through continued high rates. He asserted that rice can be shipped across the ocean and back for much less than from Beaumont to New York, and presented figures to prove his claim.

Mr. Mayfield scored the decision of the government in the Henry Ford case, refusing to permit a reduction of rates on one of Ford's private lines for fear that a corresponding reduction might be forced upon other railroads.

Pleads For Farmer

At this juncture the speaker took up the question of agriculture. He pleaded for the cause of the farmer, asserting him to be the only man who buys at retail and sells at wholesale.

"Agriculture affects everyone," he said. "It is the foundation of our prosperity. Farm products have decreased from fourteen and one-half billions of dollars in 1919 to eight billions in 1920, and to five billions in 1921.

"The farmer sells his beef for a low price and then walks into a res-

SOME NIFTY GARBS FOR THE KIDDIES

Nifty and serviceable are these new designs for children. At the left is shown a dress of pink taffeta, trimmed with white organdie and fastened with large, white pearl buttons. In the center is shown a serviceable suit for a youth. It is of white linen, edged with handkerchief linen. The garment worn by the child at the right is an imported model of white organdie and lace.

taurant and pays an overwhelming one for a steak. He cannot carry enough hides across the street to pay for a pair of shoes. He is the only man who goes 'busted' every year and still remains in business."

Is Agriculturist

Mr. Mayfield termed himself an agriculturist. The difference between an agriculturist and a farmer, he told his audience, is that an agriculturist makes his money in town and spends it on the farm, and a farmer makes his money on the farm and spends it in town.

Honest markets free from speculation, long time credits for farmers and stockmen, an amendment to the Federal Reserve Act, and extension of the power of the Federal Farm Loan Banks were some of the methods for relief proposed by the speaker to alleviate the condition of the farmers. He praised the farm bloc in Congress and asserted that it is exerting a tremendous force in favor of the nation's agriculture.

Would Pare Offices

The abolition of unnecessary government offices was proposed by Mr.

Mayfield as one of the solutions for high taxes.

"Thirty-four billions of dollars are invested in tax free securities," he said further in discussing this issue, "thereby imposing a tremendous burden on tangible property."

"I consider disarmament closely related to this question. Out of every dollar appropriated by the government, ninety-three cents goes to pay the cost of past, present or future wars. Ninety-three per cent of the five billions appropriated last year was devoted to this purpose."

Mr. Mayfield expressed the hope that in ten years the present naval holiday would result in universal peace. He lauded a covenant of nations that should permit the various countries to settle their controversies in peace rather than war. In this connection he paid a high tribute to the League of Nations and to Woodrow Wilson as its instigator.

Duty To Americans

In discussing immigration, Mr. Mayfield pointed out that Europe is heavily in debt to this nation, and that those coming to this country are needed at home in order to contribute

to the prosperity of their various fatherlands.

"There is an overwhelming amount of idleness in our country today," said the speaker. "As long as one American soldier is roaming the streets looking for work this nation is breaking its faith with those who sleep in Flanders fields if it permits one alien to set foot on its shores."

"America for Americans, I say, and those who do not kneel on our soil, consecrate themselves to this nation and kiss Old Glory have no place amongst us."

In closing the candidate outlined his principles of Americanism, most of these conforming with the tenets of the Ku Klux Klan as outlined here several weeks ago by a representative of that organization. He pleaded for an elimination of hyphenated Americans, and his last words tendered a beautiful and stirring tribute to the American flag.

Cletrac

\$595.00

F.O.B. FACTORY

*Costs less than mules
operates for less than mules*

Cletrac "F" has been acknowledged by real dirt farmers to be the greatest agricultural development of all times—a tractor that successfully cultivates cotton, corn or any row crop, besides doing all other farm work from the heaviest plowing to the most exacting job of belt work—a tractor that does all this with a first cost and operating cost of less than one-half the first cost and operating cost of mules.

Thousands of farmers with their own eyes have seen Cletrac "F" do the work that proves this—so who can blame them for being enthusiastic about the Cletrac "F" when it absolutely replaces slow moving teams and at a big saving in time and money.

Investigate the Cletrac "F" for yourself—feel its throb of power—its ease of handling—note its compact, sturdy construction—its simple working parts—its adaptability to do all your work better than you have ever had it done before—then you, too, will say, "That's the tractor for me."

A demonstration right in your own field will not obligate you in any way. Write or see us about it now.

MISS NEWTON AGAIN NAMED LIBRARIAN

BOARD ALSO ELECTS OFFICERS AT FIRST MEETING HELD HERE MONDAY

Miss Lillian Newton was unanimously re-elected librarian at a meeting of the Board held at the Chamber of Commerce rooms Monday afternoon. This was the first meeting of the new board after its appointment by the city commission.

Ocell Storey was elected president, Mrs. S. C. Hogsett, vice-president, and Mrs. E. C. Christian secretary-treasurer. The president appointed Mrs. J. A. Carney, W. W. Bennett and J. A. Dixon to serve on the finance committee. Mrs. E. C. Christian, Mrs. S. C. Hogsett and Mrs. I. S. Sewell comprise the book committee to which Miss Newton is added as an ex officio member by virtue of her office.

The librarian made an informal report stating that 16,000 books had been checked out during the year. The library contains only 4,000 books and on account of excessive handling, some of them are almost beyond repair. The library board is hoping to soon receive financial aid enough to buy new books and make certain changes deemed necessary.

NOT TO MAKE BID FOR NEXT MEETING

WEST TEXAS CHAMBER CONVENTION PLANS ABANDONED THIS AFTERNOON

Abandonment of plans to bring Vernon the 1922 annual convention of the West Texas Chamber of Commerce resulted after sufficient spirit and enthusiasm failed to materialize at a mass meeting of about forty local business men at the court house this afternoon at 1:30. Talks for and against the proposition were made by those present, but the lack of time in which to prepare for the fight proved too great discouragement for carrying out the idea. W. N. Stokes served as chairman of the meeting.

The 1922 convention of the West Texas Chamber of Commerce will be held at Plainview May 22 and 23, and those favoring bringing the next meeting here desired to branch the effort at that event. Directors of the local Chamber met Thursday morning to

EDITOR'S NOTE—In view of the intense interest in radio being exhibited throughout the nation, The Record has contracted for a series of excellent articles on this wonder of the modern century in the hope of informing its readers concerning the intricacies of this invention, and providing something of its history and progress. These features will appear in The Record from time to time.

RADIO

PROGRESS OF RADIO THROUGH THE YEARS

Wireless Research Began Long Ago, But Development Has Been Swift Lately.

Wireless research started many years ago, as far back even as 1827. Even the radio telephone is not a recent perfection; rather it is that introduction to the layman of the human voice and music has suddenly popularized something that wireless men had thought a pastime or amusement. Here is the chronological record of wireless:

1827—It was found that the magnetic discharge from a leyden jar would magnetize a steel needle.

1831—Electro-magnetic induction was discovered between two entirely separate circuits by Michael Faraday.

1837—Cooke and Wheatstone of London, England, and Morse of the United States take out first patent for electric telegraph.

1839—K. A. Steinheil of Munich suggested that a system of wireless telegraphy could be established after his discovery of the use of the earth return.

1840—Joseph Henry (U. S. A.) produced the first high-frequency electric oscillations, and stated that the condenser discharge is oscillatory.

1842—Wireless experiments were made by S. F. B. Morse by electric conduction through water across Washington canal and across wide rivers.

1843—A wireless system for transatlantic communication was suggested.

1845—Water was used as a conducting medium in wireless experiments across a wide river.

1849—Intelligible signals were actually sent across a river 4,500 feet wide in India, but the cost was found prohibitive for commercial use.

1897—The electric waves that are now utilized in wireless telegraphy and telephony were predicted in an address before the Royal Society in London, England.

1880—The sending of an electric current through earth was systematically studied by John Trowbridge of Harvard. It was found that signaling might be carried on over large distances between places not connected by wires.

1885—It was found that telephonic speech could be conveyed by induction over a space of quarter mile. This experiment took place in England.

1889—Electric waves were suggested as being particularly suitable for the sending of signals through fogs.

1892—An instrument for the detection of electro-magnetic waves was discovered which was given the name of a "coherer."

1894—A scientist of Berlin signaled through three miles of water.

1895—High frequency waves excite curiosity of Senator Marconi.

1896—First patent for practical wireless transmitting system is taken out in London by Marconi. Afterward, successful signaling was carried out over distances as great as one and one-quarter miles. Sir William Preece of the British postoffice system interested his cohorts in Marconi's wireless experiments.

1897—Marconi establishes communication between points four miles distant. Balloons were used to suspend antennas.

Marconi demonstrates his wireless system before the king of Italy, communicating with two Italian warships nine miles distant.

The first Marconi station is erected on the Isle of Wight and experiments conducted over a distance of 14 miles.

Near the end of the year the first floating wireless station was successfully operated.

1898—The first paid marconigram was sent from the Isle of Wight station.

1899—Reports made on lighthouse accident by radio. First French gunboat is fitted with radio apparatus. In Vienna communication between two balloons is established. New York Herald receives radio report of international yacht races. The British war office introduces Marconi apparatus into the South African battlefields.

1900—German vessel communicates a

distance of 60 miles by radio signals.

1901—Radio communication started with dive islands in the Hawaiian group. The first British ship is fitted with the wireless telegraph.

1902—Radiograph signals received aboard vessels at sea at 1,500 statute miles. Signals received from a distance of 2,000 miles.

1903—King Edward receives a radio message from President Roosevelt. High-power stations were ordered by the Italian government. First transatlantic radio message sent. Telegraphic news service for ships at sea is started. Marconi knighted in Russia.

1904—The first press message was sent across the sea.

1905—Patent suit started in New York between the Marconi and De Forest company.

Patent for horizontal directional aerial is taken out. This was a great step forward in long-distance work.

1906—International conference is held in Berlin, at which most of the countries of the world are represented.

1907—The use of steel disks for producing notes were successfully tested.

Radio stations in Ireland and Nova Scotia were opened for limited public service.

1908—Radio stations opened for unlimited public service between Great Britain and Canada.

1909—Steamship in collision with another off the coast of Florida succeeds in calling assistance by radio.

1910—Marconi receives messages 6,700 miles while on board ship going to South America.

Spanish radio company formed.

1911—Canadian government leased radio stations for 20 years.

1912—Radio distress signals from the Titanic bring assistance and save lives of 700 passengers.

1913—Tests were made between the Eiffel tower in France and the station at Washington. During the trip into Central Asia an explorer received his longitude and time signals from a distant radio station.

1914—Marconi and radio officials start test of wireless telephone between vessels of the Italian fleet. The test was continued between vessels off the high seas and voices were heard with clarity at a distance of 44 miles. One day radio telephone communication was kept up constantly for 12 hours. Great Britain declared war upon Germany August 4 and all private radio telegraphy and telephony suspended.

1915—Radio communication between America and Japan is completed. The stations were located at San Francisco and Tokyo with a relay station at Honolulu.

The American Telephone and Telegraph company succeeded in radio telephoning from Arlington station at Washington to Hawaii, a distance of nearly 5,000 miles.

Secretary Daniels of the United States navy transmitted telephonic messages from Washington to the Brooklyn navy yards.

1916—President Wilson and the mirado of Japan exchange messages over the new transpacific radio service, which is formally opened.

1917—Senator Marconi visits the United States and aids greatly in recruiting for radio operators for the United States army.

1918—Wireless telephony progressed rapidly, being used to a great extent in the equipment of airplanes.

Several new long range stations were erected in the United States, it being claimed for one built at Annapolis, Md., that it was capable of communication at 4,000 miles. The United States government also opened a high-power station at Borgeaux.

In September of this year radio signals sent from a point 12,000 miles away were received in Sydney, Australia.

1919—With the exception of the three transatlantic flights—that of the U. S. NC-4, and the British flights of Alcock and Brown and the dirigible R-34, in which radio communication played an important part in keeping the ships of the air on their courses—no very great progress was made in radio telegraphy, although radio telephony was being pushed along quietly.

Restrictions upon amateur receiving and sending were lifted by the American government.

1920—This was the year of the radio telephone, more attention probably being paid to this branch of radio than to its older brother, telegraphy. Several broadcasting stations were opened.

1921—This year was another radio telephone year. It was marked by the opening of numerous broadcasting stations.

To the Public

I have taken charge of the Vernon Fish and Oyster Market 315 North Fannin street. Fresh fish, oysters, fresh meats, poultry, butter and eggs will be bought and sold. See me when you want to buy or sell.

SPECIAL ELECTION NOTICE

Pursuant to an order issued by Pat M. Neff, Governor of the State of Texas, there is hereby given that a Special Election will be held on Saturday the 13th day of May A. D. 1922, at various voting places in Election Precinct Nos. 1, 2, 3, 4, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, and 17 in Wilbarger County, Texas, for the following purpose, viz: To elect a member of the Congress of the United States from the Thirtieth (30th) Congressional District of the State of Texas, to fill the vacancy occasioned by the death of the Hon. Lucian E. McHugh, County Judge, Wilbarger County, Texas. 29-47c

THE STATE OF TEXAS, COUNTY OF WILBARGER.

On this, the 10th day of April, 1922, the Commissioners' Court of Wilbarger County, Texas, convened in regular session, at the regular meeting place thereof in the Court House of Vernon, Texas, the following members of the Court, to-wit:

E. L. McHugh, County Judge; A. M. Bourland, Commissioner, Precinct No. 1; O. A. McCaleb, Commissioner, Precinct No. 2; J. S. Archer, Commissioner, Precinct No. 3; J. M. Luttrell, Commissioner, Precinct No. 4; being present, and passed the following order:

It was moved by Commissioner O. A. McCaleb, and seconded by Commissioner J. M. Luttrell, that there be submitted to the qualified voters of said County who are property taxpayers therein, the proposition for the issuance of the bonds of said County in the sum of \$500,000.00 for the purpose of establishing and equipping a County Hospital and providing all other necessary permanent improvements in connection therewith, the election to be held on the 10th day of May, 1922; the motion carried by the following vote:

Commissioners A. M. Bourland, O. A. McCaleb, J. S. Archer, and J. M. Luttrell voting AYE: None voting NO.

Thereupon the following ELECTION ORDER was adopted:

WHEREAS, the County Commissioners' Court of the County of Wilbarger, Texas, deems it advisable to issue bonds of said County for the purpose hereinbefore mentioned;

THEREFORE, BE IT ORDERED BY THE COMMISSIONERS' COURT OF SAID COUNTY that an election be held on the 10th day of May 1922, at which election the following proposition shall be submitted:

"Shall the Commissioners' Court of the County of Wilbarger, Texas, be authorized to issue bonds of said County in the sum of Fifty Thousand Dollars (\$50,000.00), payable serially within any given number of years, not to exceed Forty (40) years, within the discretion of the Commissioners' Court, bearing interest at the rate of five and one half per centum (5 1/2) per

annum, and to levy a tax sufficient to pay the interest on said bonds and create a sinking fund sufficient to redeem them at maturity, for the purpose of establishing and equipping a County Hospital and providing all other necessary permanent improvements in connection therewith, as authorized by Chapter 1, Title 18, Revised Statutes of Texas, 1911, and amendments thereto?"

The polling places and presiding officers of said election shall be respectively as follows:

At the West Side Court House, with E. P. Robertson as presiding officer; At East Side Court House, with T. L. Rouse as presiding officer;

At Oklaunion, with J. F. Stark, as presiding officer; At Harold, with R. P. Burgess, as presiding officer;

At Mack Schoolhouse, with E. M. Schaub, as presiding officer; At Lockett Schoolhouse, with S. C. Dav- 28

port as presiding officer; At Kincheol Schoolhouse, with O. K. Hater, as presiding officer;

At Tolbert Schoolhouse, with Will Cumulus, as presiding officer; At Odell, with J. M. Collins, as presiding officer;

At Doans, with P. M. Emmett, as presiding officer; At Doans, with W. J. May, as presiding officer;

At Haney Schoolhouse, with Claude Price as presiding officer; At S. C. Dav- 28

port as presiding officer, with E. B. Gillis, as presiding officer;

At Elliott, with E. G. Goss, as presiding officer; At Farmers Valley Schoolhouse, with C. H. Randle, as presiding officer.

The said election shall be held under the provisions of Chapter 1, Title 18, Revised Statutes of Texas, 1911, and amendments thereto, and the Constitution and laws of the State of Texas, and only qualified voters who are property taxpayers of said County shall be allowed to vote.

All voters desiring to support the proposition to issue the bonds shall have written or printed on their ballots the words: "FOR THE ISSUANCE OF THE BONDS AND THE LEVYING OF THE TAX."

And those opposed shall have written or printed on their ballots the words: "AGAINST THE ISSUANCE OF THE BONDS AND THE LEVYING OF THE TAX."

The manner of holding said election shall be governed by the laws of the State regulating general elections.

A copy of this order signed by the County Judge of said County and certified to by the County Clerk of said County shall serve as proper notice of said election.

The County Judge is authorized and directed to cause said notice of the election to be posted up at the places designated for holding said election at least thirty full days prior to the date of said election.

The County Judge is further authorized and directed to have said notice of election published in some newspaper of general circulation published in said County and which notice shall be published once each week for four weeks, the date of first publication being not less than thirty full days prior to the date of the election.

E. L. McHugh, County Judge; A. M. Bourland, Commissioner, Precinct No. 1; O. A. McCaleb, Commissioner, Precinct No. 2; J. S. Archer, Commissioner, Precinct No. 3; J. M. Luttrell, Commissioner, Precinct No. 4.

er, Precinct No. 4. THE STATE OF TEXAS, COUNTY OF WILBARGER. I, Vern L. Luckey, Clerk of the County Court and Ex-Officio Clerk of the Commissioners' Court of Wilbarger County, Texas, do hereby certify that the foregoing is a true and correct copy of an election order passed by the Commissioners' Court of the County of Wilbarger, Texas, on the 10th day of April, 1922, at a regular meeting of said Court, a quorum being present, which order is of record in Book 5, Page 118 et seq. of the Minutes of said Court, and which said Minutes have been duly signed by the County Judge and the County Commissioners present.

Witness my hand and seal of the Commissioners' Court this 12th day of April, 1922.

VERNA LUCKY, County Clerk and Ex-Officio Clerk of the Commissioners' Court of Wilbarger County, Texas. 27-47c

STEADY PROGRESS IN WILBARGER OIL CIRCLES FOR WEEK

Triangle Resumes Operations After Halt Of Several Weeks—Rains Interfere With Hauling—West Vernon Encounters Difficulties—Pyramid May Proceed Again.

Constant activity is reflected in Wilbarger county oil circles for the past week, although no developments of a startling nature have transpired. Excessive rains have made roads nearly impassable and interfered with the transportation of oil. The difficulty has served merely to slow up the work.

Triangle well drillers are again busy, having rebuilt their derrick after a storm several weeks ago leveled it to the ground. Three hundred feet of hole have been cleaned of cavings, and bottom was again struck Sunday afternoon.

Plenty Of Water

Further drilling is now in progress, and officials of the company are frank in stating they expect to find oil at any time. The bit in the Triangle well has penetrated more than 1,500 feet. An abundant supply of water is affording much relief to the outfit after many weary weeks of hauling from a source miles away.

West Vernon well drillers are "plugging ahead," as advised by A. E. Dean in charge of operations on the location three miles west of town. Numerous difficulties are being encountered, Mr. Dean said, and there are 2,000 feet of salt water not shut off in the hole.

According to the superintendent, work will proceed. He expressed no prediction concerning the depth to be sought or showings expected.

Progress On Sigler Offset

The Sigler offset is progressing as well as could be expected, were advice given from the office of that concern this morning. Bad weather has interfered to a great extent in the speed of operations. No other difficulties have been encountered.

The Noble well, southeast of town, is now considered as near a crucial depth. Steady progress is reported for the past week.

Rumors in town this morning, as yet unconfirmed, are to the effect that work on the Pyramid well in the Sigler field will be resumed. George Long, superintendent of operations here, is in Burk Burnett and consequently could not be found today. He is expected home this afternoon.

SUCUMBING TO TYPHOID FEVER

M. W. Sandridge, N. Lexington Street, Dies Tuesday After Illness Of Nearly Four Weeks

M. W. Sandridge, 27 years old and living in the D. Armstrong home on N. Lexington street, died Thursday morning at 2:30 after an illness of twenty-six days. Death resulted from an attack of typhoid fever. He is survived by his wife and one child.

Mr. Sandridge and his family have made their home in Vernon at intervals for the past two years. The stricken man was employed as a driller in Electric fields.

Mr. and Mrs. J. B. Sandridge, parents of the local resident, together with his wife and child were at the bedside when the end came. Mr. Sandridge made a heroic fight for his life before succumbing to the disease. The body was shipped to Whitesboro Wednesday for burial, and funeral services were held there this morning.

P. T. Plummer and daughter, Miss Sue, both of Chillicothe, were in Vernon this morning.

Wanted.—Clean cotton rags at Record office. 27-31.

It was just like Lloyd George to advocate checking paper currency issues when checking them is what seems to be needed.

MORGAN POINTS OUT ACT'S DEFICIENCIES

SAYS ESCH-CUMMINS BILL CUTS
FARM PRODUCTS FROM
MARKETS

Wichita Falls, Texas,
May 4, 1922.

"Judge Frank Kemp, Vernon, Texas."

"Replying to my inquiry with reference to my position on the Esch-Cummings law, the bonus question and the cancellation of foreign debts due us, our allies, please allow me to give you the following outline of my views on the several matters mentioned as follows:

Rates Too High

"It is my opinion that the Esch-Cummings law as it has been discussed by the Interstate Commerce Commission at Washington imposed an undue hardship upon both the producer and the consumer. As an illustration: the freight on a car of feed at the present time when shipped any considerable distance, will cost almost as much as the feed itself. This is true of practically every other commodity raised by the farmer and many of its products have been thereby cut off from any market. It, of course, follows that the effect of this is not only to increase prices to consumers but to stifle all lines of business.

"The Esch-Cummings law is a very intricate piece of legislation and it is impossible to make any further analysis than merely to call attention to its effects in actual practice. I cannot, of course, approve any law which has within it so many inequalities and hardships for the great masses of people and I might say further that this law is conceded further to infringe upon the powers of the several states through their Railroad Commission in dealing with strictly intrastate freight rates. My views on state rights are too well known to require any further emphasis.

Would Help Soldiers

"With reference to the bonus question, I am heartily in favor of utmost liberality in providing for the needs of the wounded, sick and disabled heroes of the recent war. This relief should be given immediately with all red tape eliminated by the government in dealing with them and their problems. I am also in favor and will support all of the provisions of the American Legion Adjusted Compensation bill except that which would provide a cash bonus for the able-bodied. The backs of the people are now breaking with taxes and I am unwilling to see them further oppressed by adding another FIVE BILLIONS to the staggering load, they carry in order to raise the money to pay such cash bonus. Perfect frankness requires me to say at least for the present, I am unable to bring myself to support the cash provisions of that bill. I am also in favor of allotting all government lands to soldiers for homesteads.

"I am opposed to the cancellation of the debt due us by our Allies, although I sympathize profoundly with

the difficulties confronting our late comrades in arms in Europe, but this money can eventually be collected and applied to our own war debt. This course will naturally save the American taxpayers the full amount so paid.

"Please be assured that I am not only willing but glad to make plain my position on all the public questions now confronting the people of this district. You will therefore feel free to inquire of me at will on any of those questions.

"Very sincerely yours,
"S. A. L. MORGAN."

Kindergarten

I will teach a class in kindergarten beginning June 12. After specializing in primary work I was engaged in this branch of teaching for five years, during the last three years of which time I taught in Vernon City schools. This winter I taught a kindergarten class in the Bible school in Kansas City.

Your patronage will be appreciated as this will enable me to continue my missionary preparation at Scarrill school of Missions.

Place where I will teach will be announced later.

32-34c. ALICE McLARTY.

To Speak For Morgan

C. C. McDonald and Judge A. H. Carrigan of Wichita Falls will speak Saturday at the Deans picnic in the interest of the candidacy of S. A. L. Morgan.

Of May will conduct—somewhere in the county, a night fishing school for the benefit of the natives. Apply early and avoid the rush.

WARLICK ANNOUNCES FOR DISTRICT JUDGE

The Record is authorized to announce in this issue, the Hon. O. T. Warlick of this county, as a candidate for the Democratic nomination for District Judge of this, the 46th Judicial District.

Judge Warlick is a native Texan, having been born in Johnson county near Grandview. He was raised in Childress county, in this district and began the practice of law at Paducah, in Cottle county in 1905, removing to Vernon in 1911. Since that time he has served the citizens of Wilbarger county as county attorney and the district as district attorney. He resigned the office of district attorney in 1919 to reenter the practice of law at Vernon, where he has enjoyed a large and successful practice.

Judge Warlick is a lawyer of splendid ability and long years of experience which fit him especially well for the duties of the office to which he aspires.

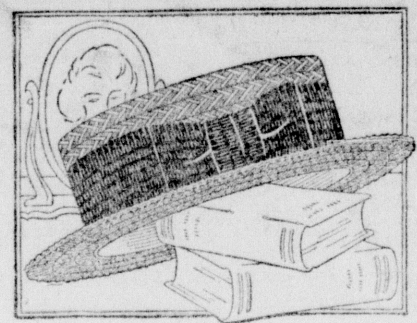

He will begin at once, an active campaign among the voters of this district.

The Record requests the voters of this district to give a careful consideration of the candidacy of Judge Warlick.

DAINTY LUNCHEON ANNOUNCES AN APPROACHING MARRIAGE

Miss Helen Hiatt, whose marriage to Eugene Berry of Wichita Falls occurs May 7, was the honoree at a dainty luncheon Wednesday afternoon at the home of Miss Lucile Holt on W. Wilbarger street. Guests were greeted at the door by the hostess and were met in the carnation decorated hall by Miss Charlie May Northcraft who ushered them into the dining room. The table was decorated in the bride-to-be's colors of pink and orchid. This color scheme was carried out through the four courses.

Rose shaded electric candles lighted the table. In the center of the table flowers and ferns were the decorations and crowning this center piece was a miniature bride dressed in a beaded white satin gown with train and filmy bridal veil. On this figure, symbolic of the occasion, a reflector played and also lighted up the sentence announcing the approaching nuptials of Miss Hiatt and Mr. Berry.

BRIDE-TO-BE OF WELL KNOWN COUNTY FAMILY

Miss Helen Hiatt, whose approaching marriage Sunday to Eugene Berry of Wichita Falls was announced at a luncheon Wednesday at the home of Miss Lucile Holt, is a daughter of Mr. and Mrs. A. M. Hiatt, residents of Vernon for many years and one of the best known families in Wilbarger county. Miss Hiatt was born and reared in this city, and has a large circle of intimate friends.

After attending local schools she studied at Texas Woman's College, graduating from that institution in 1920. She is a member of the Entre Nous Club, the Home Economics Club and is included in the membership of the Methodist church.

Mr. Berry is a son of Mr. and Mrs. J. W. Berry of Wichita Falls, and is in the office of the Wichita Mill and Elevator Co. He is well liked, not merely among Wichita Falls residents but in Vernon, where he has made many friends through frequent visits. Mr. Berry and his bride will leave Sunday on a wedding trip to Oklahoma City and Lawton, Okla., and will be at home the last of next week in Wichita Falls.

Club Entertains Gentlemen

Mrs. Guy Puckett, Mrs. F. A. White and Mrs. Homer Rogers were hostesses to the Avalon Bridge Club Tuesday night at the home of Mr. and Mrs. Guy Puckett on E. Maiden street. "Gentlemen's Evening" was observed. Eight tables of bridge were played. The house was decorated in American Beauty and La France roses, and the favors were cut flowers. The hostesses served a delicious two course luncheon.

TENTH BIRTHDAY OF LITTLE MISS REMEMBERED BY AUNT

Mrs. Russell Middleton entertained for her niece, little Miss Mildred Weekley, at her home on E. Wilbarger street Monday afternoon. The occasion was the celebration of Miss Mildred's tenth birthday. Guests were the members of Mrs. Middleton's Sunday school class of the Methodist church. The little miss received many presents from her classmates and relatives.

Games were played and the hostess served ice cream cones to the little guests.

ACUSHLA GAL MACHREE

By Michael Dohoney

The long, long wished for hour had come,

But come, ashore, in vain,
And left thee but the wailing hum
Of sorrow and of pain;
My light of life, my only love,

Thy portion sure must be
Man's Scorn below, God's wrath above.

Acushla gal machree.

'Twas told of thee the world around,
'Twas hoped for thee by all,
That with one gallant upward bound
Thou'dst burst long ages' thrall;
Thy fate was tried, alas! and those
Who periled all for thee
Were cursed and branded as your foes.

Acushla gal machree.

What fate is thine, unhappy isle,
That e'en they trusted few
Should pay thee back with fraud and guile

When most they should be true?
'Twas not thy strength or spirit failed
And those who bled for thee
And loved thee truly have not quailed.

Acushla gal machree.

I've given thee manhood's early prime
And manhood's waning years;
I've blest thee in thy sunniest time,
And shed for thee my tears;
And mother, tho' thou'dst cast away
The child who died for thee,
My fondest wish is still to pay
For cushla gal machree.

I've tracked for thee the mountain sides
And slept within the brake,
More lonely than the swan that glides
On Lua's fairy lake;
The rich have spurned me from their door
Because I'd set thee free,
Yet do I love thee more and more.

Acushla gal machree.

I've run the outlaw's bold career,
And borne his load of ill,
His troubled rest and walking fear
With strong, sustaining will;
And should the last dark chance befall,

Even that shall welcome be,
In death I'll love thee more than all.

Acushla gal machree.

Stop That Itching.

HAWAIIAN CONGRESSMAN ASSUMES DUTIES.

Congressman Baldwin and wife, Mrs.

Congressman Harry A. Baldwin, of Hawaii, has arrived in Washington to assume his official duties. He is pictured here with his wife.

THE TWENTY-THIRD PSALM

As revised by the faithful partisan in the G. O. P.

Harding is now my shepherd; and I am in want;

He maketh me lie down on park benches,

He leadeth me beside the free soup houses,

He restoreth my doubt in the Republican party.

He leadeth me in the paths of destruction for his party's sake.

Yea, though I walk through the valley of the shadow of starvation.

I do fear evil for thou art against me, thy policies and the profiteer they frighten me;

Thou preparest a reduction in wages before me in the presence of mine enemies.

Thou anointest my income with taxes; my expenses runneth over my income.

Surely poverty and Unemployment will follow me all the days of this Normalcy Administration and I will dwell in a Rented House forever."

To the Public

I have taken charge of the Vernon Fish and Oyster Market 315 North Fannin street. Fresh fish oysters, fresh meats, poultry, butter and eggs will be bought and sold. See me when you want to buy or sell.

**Insist upon Kellogg's,
the original Corn Flakes
—they're wonderful**

Kellogg flavor and Kellogg crispness are so different that there can be no comparison between Kellogg's Corn Flakes and imitations.

Little folks quickly say, "Get Kellogg's, Mother—please," because Kellogg's are never tough or leathery or hard to eat! Kellogg's are always so delicious that big bowls quickly disappear and eager little mouths appeal for more! And big folks appreciate the superiority of Kellogg's because their flavor is so inviting. Kellogg's are wonderful!

Insist upon Kellogg's—the kind in the RED and GREEN box that bears the signature of W. K. Kellogg, originator of Corn Flakes. None are genuine without it!

Don't forget, KELLOGG'S Corn Flakes are made by the folks who gave you the JUNGLE LAND Moving Pictures. Coupon inside every package of KELLOGG'S Corn Flakes explains how you can obtain another copy of JUNGLE LAND.

**Kellogg's

ALL IN READINESS FOR MEET

Austin Residents Open Doors to Visitors From 4,000 Schools In State

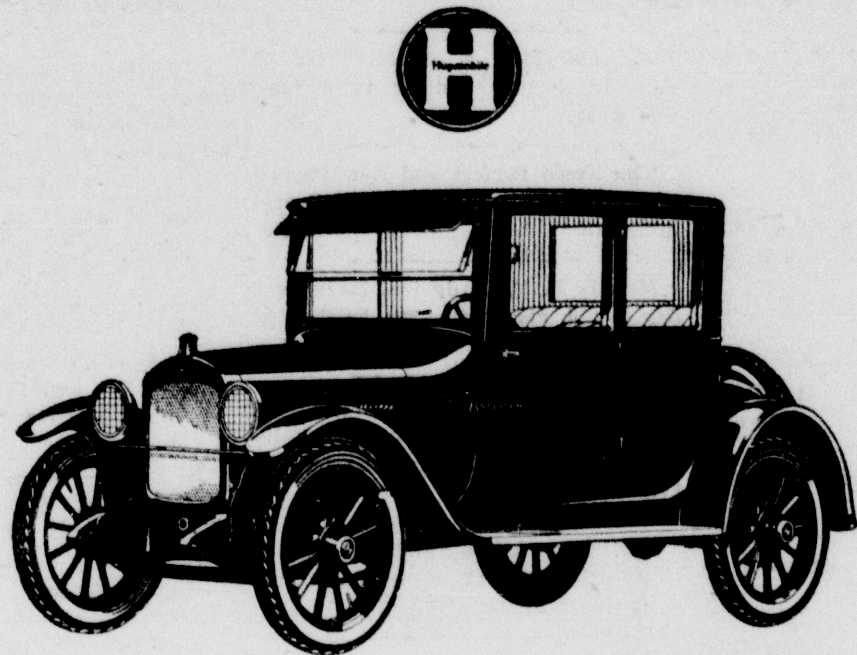

Austin people and students of the University of Texas are preparing to entertain 2,000 delegates at the annual Interscholastic League meet today and tomorrow. E. D. Shurter, state chairman of the League, has issued a call for places to house the dele-

gates during the two night they will be in Austin. Many University students are serving on the committees who will have charge of the lodging of the delegates and transportation of them from the station.

The Interscholastic League has grown continually since the time of its establishment in 1911. It was organized by the present state chairman in December 1910 at the Texas State Teachers meeting at Abilene, and the first meeting was held at the Uni-

versity in 1911.

From a membership of 28 schools the first year the organization has grown to a membership of 4,000 schools at the present time. It is the most highly organized and largest in point of member schools in the United States. It has 190 county organizations; these counties are grouped into 32 districts. Wilbarger county's delegates left Wednesday under charge of R. S. Covey, superintendent at Harrold.

Truths Everyone Knows

Hupmobile costs of operation hold to an exceptionally low level.

Maintenance and repair costs are almost unbelievably low.

Car is particularly free from the need of constant and petty adjustments.

A remarkably fine performer when it's new, and the same fine performer when it's old.

Recognized cost value or trading value as a used car proportionately higher than the average, in relation to price.

Touring Car, \$1250; Roadster, \$1250; Roadster-Coupe, \$1485; Coupe, \$1835; Sedan, \$1935;—Cord Tires on all models—Prices F. O. B. Detroit. Revenue Tax Extra.

WORKMAN SHOTS ODD FOWL

Anhinga Killed At Hill Crest One Of Species Found Usually On Ocean Shores

An anhinga, a species of water birds infrequently found inland, was killed Tuesday on the lake at Hill Crest Country Club by one of the workmen employed on the ground. Baffled by the queer appearance of the fowl, those who viewed it soon after its capture took it to R. L. More, well versed in ornithology, who pronounced it an anhinga.

According to Mr. More, the anhinga is also known as the "snake bird" from its abnormally long neck and slim body. It lives in bays, coves, and usually near the ocean, and is a strong flier and swimmer. Mr. More is of the opinion that thousands pass over this county each year, and that the bird captured here became separated from a flock of its mates on a migrating journey.

The animal is black in color, has long tail feathers and web feet. It is said to be especially adept at diving and can swim long distances under water.

Story Perhaps Misconstrued

It has been called to the attention of the management of The Record that a story appearing in the issue of April 18 concerning "Snooks" Simmons has been misconstrued by some of those living in the little fellow's neighborhood. The article in The Record was written from a feature standpoint and was not meant to reflect upon the standing in any way of J. P. Simmons, the boy's father, who was not personally known to the writer of the story. An attempt was made merely to offer readers of The Record a human interest feature. The little fellow's name was in reality Raten.

Constructive Legislation and Guinn Williams Are Strangers

They Did Not Meet at Austin---

Why Believe They Will Meet at Washington?

GUINN WILLIAMS' POLITICAL RECORD—STUDY IT

He voted Against Senate Bill No. 31, Which Would Have Provided Equal Rights For Women on County And State Executive Committees—And Yet Today He Is Advertising Himself Before You As a Champion of Equal Rights For Women.

He Voted For the Vicious Motor Truck Bill, Railway Measure, That Would Have Made It Impossible for the Farmers to Carry His Produce to the City by Motor and Sell It at Even a Fair Profit—And Yet He Claims He Is the Farmers' Friend Today.

He Voted to Reduce the Appropriation for Rural School Aid—And Today He Is Carefully Dodging This Subject in All His Speeches.

He Blocked the Appropriation for the Penitentiary, and By So Doing Forced State Officials to Go Outside the State to Borrow Money With Which to Maintain the Penitentiary.

Guinn Williams is a Banker. He introduced Twelve Bills in the 37th Legislature. One Was Passed, But the Eleven Others Died.

S. A. L. MORGAN IS DODGING NO ISSUES IN THIS RACE

He Says Extravagance Must Stop, Taxes Must Be Lowered, Farmers Must Have Markets, Freight Rates Must Be Cut. He Has No Special Interests To Serve. He Is Running For Congress On a Straightforward, Honest, Business Platform, Drafted for the Purpose of Caring for the Interests of All the People of the Thirteenth District—A Platform That Is Open and Above-Board. He Has Nothing To Hide; Nothing to Conceal; Nothing of Which He Is Ashamed.

He is a Big, Strong, Earnest Man of Vision and Intelligence, Who Has Never Shirked His Responsibilities.

THE VOTERS OF THE THIRTEENTH DISTRICT WHO ARE SICK OF POLITICAL JUGGLING AND BROKEN PROMISES—WILL GO TO THE POLLS ON MAY 13TH AND CAST HONEST BALLOTS FOR AN HONEST MAN

S. A. L. MORGAN
